City of London	
	Computer Science

| 2011 - 2013 | **High School Diploma in Computing** |
| Uxbridge College | BTEC IT |

PERSONAL INTERESTS

Outside of computing/development I often like to play cricket for a local team. I have engaged in several charity tournaments and have been on several committees to help with fundraising and organisation. I am also an avid gamer who streams different games a couple of days a week. An Arsenal fan, I almost always engage in conversation around football, especially the tactical and management side of the game.
